Dear Lou,

Presume you are aware of the Epstein piece in yesterday's New York Times Magazine. I have written a partial answer (with the request for space for response) that I enclose on the chance you, Jim or Moo might want to read it. When you are finished with it, would you please return it? I've got a lot of "buffs" to keep posted and cannot take the time to retype or photocopy.

On your security, I have obtained a copy of a memo someone sent or gave Jim months ago. Before it reached me and after it left New Orleans it had to pass through a minimum of three sets of strange hands. My own belief is that four is probable - I am the fifth.

There is no need to spy against you. The service is free, unstinting and friendly.

Best regards,
